The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over the prior art and for the reasons set forth in the 9/20/04 paper.

The rejection under the "use or sale" provision of 35 U.S.C. 102(b) is withdrawn at this time with an explanation following. The declaration of Valmassoi filed on 3/23/05 under 37 CFR 1.131 has been reconsidered and is ineffective to overcome the Cal Spas reference. Section (b) of this rule requires:

- (b) The showing of facts shall be such, in character and weight, as to establish reduction to practice prior to the effective date of the reference, or conception of the invention prior to the effective date of the reference coupled with due diligence from prior to said date to a subsequent reduction to practice or to the filing of the application. Original exhibits of drawings or records, or photocopies thereof, must accompany and form part of the affidavit or declaration or their absence must be satisfactorily explained.

Note that the rule states that these documents "must" accompany the declaration. The said declaration has no such support and lacks any explanation of the absence thereof and as such is accorded no probative value. Upon perfection, this issue will be revisited and the sale or use issue will be engaged if appropriate.

Furthermore as set forth in M.P.E.P. 715.04:

Affidavits or declarations to overcome a rejection of a claim or claims must be made

by the inventor or inventors of the subject matter of the rejected claim(s), a party qualified under 37 CFR 1.42, 1.43, or 1.47, or the assignee or other party in interest when it is not possible to produce the affidavit or declaration of the inventor(s). Thus, where all of the named inventors of a pending application are not inventors of every claim of the application, any affidavit under 37 CFR 1.131 could be signed by only the inventor(s) of the subject matter of the rejected claims. Further, where it is shown that a joint inventor is

As such the instant declaration is inappropriate as failing to comply with this requirement.
